

WCCTV 4G Covert Mini Dome

Wireless CCTV (WCCTV) is the market leader for rapid deployment surveillance solutions specifically designed to deliver video securely and efficiently via 4G LTE networks.

Since 2001, WCCTV has supplied its award-winning customer-focused mobile surveillance systems to Government agencies, Law Enforcement and Homeland Security organizations, as well as to construction companies, oil and gas providers, commercial organizations and security solution integrators.

WCCTV provides unrivaled customer support and focuses on continual technical product development to meet its customers changing needs and requirements.

The WCCTV 4G Covert Mini Dome

The WCCTV 4G Covert Mini Dome is a mobile video surveillance product specifically designed to discreetly blend into its environment and deliver live video and recorded video via 4G LTE networks for covert applications.

As an all-in-one portable video surveillance solution, the 4G Covert Mini Dome combines a high definition PTZ camera, local recording capacity (up to 4TB) and wireless transmission technology into a single, lightweight unit that is easy to install, easy to maintain, and can be moved to new locations to meet your changing requirements.

Live and recorded footage can be accessed via wireless networks including 4G LTE, 3G and Wi-Fi connectivity, allowing users to remotely view and download the video via mobile devices (smartphone, tablet, laptop or PC) or via an existing video management system.

The system is ideal for rapid deployment, and requires minimal supporting infrastructure for operation, allowing users to benefit from fix-power-walk away ease of set up.

It can be utilized for multiple surveillance applications in crime hotspots and areas associated with graffiti, illegal dumping, violence, disorder, gang culture and drug dealing.

Features & Benefits

- Covert mobile video surveillance system
- HD video (up to 720p)
- 4G, 3G and Wi-Fi connectivity
- Day/night camera
- Remote control of PTZ
- Remote access to live and recorded footage via smartphone, tablet, laptop or PC
- Low power usage
- ONVIF compatible
- Easy to install and maintain
- Lightweight unit (9 lbs)
- Up to 4TB internal storage

Possible Applications

- Crime hotspots
- Illegal dumping
- Business and parking lot protection
- Government and city safety monitoring
- Parks and recreation

General	Dimensions (HxWxD)	8.2" x 7.0" x 4.5"
	Operating Temperature Range	-58 to +122°F
	Power	100-240 Volt input (mains powered)
	Power consumption	350mA (minimal)
	Weight	6 lbs
	video inputs	1
Video	Operation	Simultaneous live, record, playback, remote access
	Maximum PPS	25
	Recording	Proprietary narrowband algorithm
	MutiMode (Recording Algorithms)	Dynamically changes record rates and compression settings for the camera
	Snapshot Video Clip	No
	Video Motion Search	Yes
	Archive Protection	Yes - Protect against overwriting
	Wireless Communication	Supported via suitable interface - 3G, 4G
	Internal capacity	Up to 4TB
	HDD Types	Removable SATA hard drive
Storage	Export	HSUPA / Network / Removable hard drive
	Alarms and Relays	1 input N/O or N/C
	Alarm Function Support	Alarm log, event search, pre-event recording
Alarms	Alarm Reporting	Yes - to a remote site via email
	Display Alarm on PC Monitor	Yes or Network / HSUPA
	Video Motion Detection	Yes
	Remote PC Client	Client software free download
	Remote Web Browser Client	Viewing
Networking	Password Protected	Yes
	Remote Smartphone (iPhone) Compatible	
	Remote Tablet (iPad) Compatible	
	Software Upgrade	Internet / HSUPA / back to back PC
Warranty	12 months warranty with options for extended warranty
