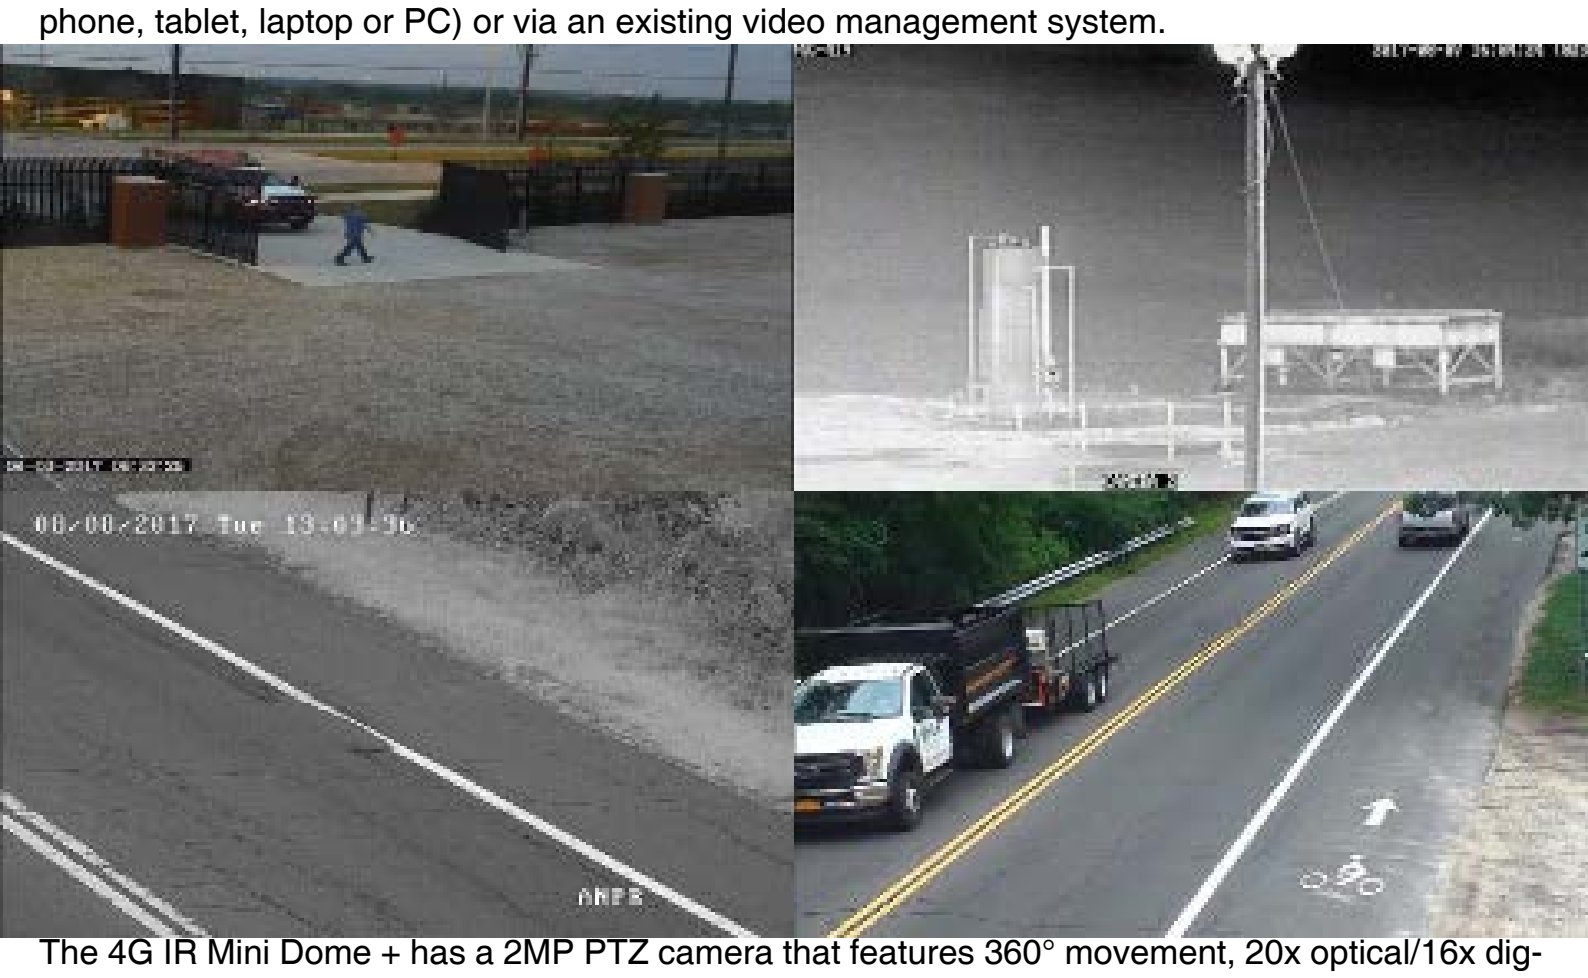
WCCTV 4G IR Mini Dome +

WCCTV's **4G IR Mini Dome +** is a rapid deployment pole camera designed for mobile video surveillance applications. The system delivers live and recorded high definition images via 4G LTE networks.

As an all-in-one portable video surveillance solution, the 4G IR Mini Dome combines a market leading infrared PTZ camera, local recording capacity (up to 4TB) and wireless transmission into a single, lightweight unit that is easy to install, easy to maintain, and can be moved to new locations to meet your changing requirements.

Live and recorded footage can be accessed via wireless networks including 4G LTE, 3G and Wi-Fi connectivity, allowing users to remotely view and download the video via mobile devices (smart-phone, tablet, laptop or PC) or via an existing video management system.



The 4G IR Mini Dome + has a 2MP PTZ camera that features 360° movement, 20x optical/16x digital zoom, IR capability (up to 150ft), inbuilt auto-tracking detection presets and low light capability.

The system contains inbuilt video analytics functionality that provides visual verification and email alarms for a range of intelligent surveillance applications such as intrusion detection, crowd management, traffic violations and more.

The unit features three additional input channels, allowing the addition of secondary cameras such as LPR cameras, secondary PTZ cameras or static cameras for Time Lapse Video applications. These cameras are able to share all of the features of the 4G IR Mini Dome.

The additional input channels can also be utilized for the addition of accessories such as solar packs and the WCCTV Blue Light alarm system.

Features and Benefits

- Rapid deployment mobile surveillance system
- High definition video (up to 1080p)
- 4G LTE, 3G, Wi-Fi and IP connectivity
- 2MP day/night camera (0.005 lux, B/W: 0.01 lux)
- Up to 150ft IR illumination
- Inbuilt video analytics for intelligent surveillance
- Inbuilt auto-tracking camera presets
- Remote control and configuration of PTZ, presets and auto-tours
- Remote access to live and recorded footage via smartphone, tablet, laptop or PC
- Low power usage
- High-speed live streaming - up to 25 FPS
- ONVIF compatible
- Easy to install and easy to maintain
- Lightweight unit (9 lbs)
- Fix-power-walk away
- 3 additional input channels - add an LPR camera / multiple accessories
- Integrates with most video management platforms
- Dual streaming live video (H.264 & MJPEG)
- Environmentally tested (IP65 rated)
- Up to 4TB internal storage
