

## High-Quality Remote Video Surveillance and Monitoring For Community Events, Construction Sites, and More.

The PASS Mobile OverSite Solar Trailer is an autonomously-powered mobile video surveillance system that can be rapidly deployed at practically any location, providing security for remote sites, short-term events or off-grid locations on a temporary or permanent basis.

## Why PASS Mobile OverSite is Better Than the Rest

- ▶ 600 Watt Solar System with 8 AGM Batteries for longer operation and life span than others on the market
- ▶ 5500 Watt Auto Start Onan Gas Generator with 20 Gal Fuel tank for longer run times than others on the market
- ▶ Industry Leading Cameras with Thermal and IR PTZ capabilities allowing the end user full control of cameras and views
- ▶ Up to 4TB's of onboard video storage with a proven VMS Solution
- ▶ Class Leading video analytics with Email/SMS notifications for multiple users
- ▶ Remote viewing via 4G LTE/3G/Wi-Fi
- ▶ ON Board GPS Locators for peace of mind and video location verification
- ▶ Short Term/Long Term Lease as well as Purchase Options
